The Analyst Insight Workshop

**Saturday 15th & Sunday 16th of November 2008
Brisbane Australia**

***Attend the workshop and get the Analyst Insight DVDs for
FREE!!!***

It's that time of the year again and based on the huge success of the last one, well and truly time for another Analyst Insight Workshop!

Because of the difficult market we have found ourselves in and to give you the best chance of extracting the most benefit from attending the workshop, I have decided to put together packages that I think offers the best value for money I have ever offered at any previous workshop event.

Last year I had a number of people who wanted to attend the workshop but because of other commitments or where they lived, were unable to get there. So this year I have come up with a solution that will give all of you the ability participate in this event no matter what your situation is.

I regularly have people travel from interstate to attend my workshops, so if you are considering travelling from interstate, I have deliberately organised the start and finish time of the workshop to allow many of you to fly in on the morning of the workshop and require only one night's accommodation.

So, if attending a Market Insight Pty Ltd workshop is something you have always wanted to do, consider this email your personal invitation to join me for two days of excitement and learning where I will outline techniques and methods not commonly taught to the public.

The Analyst Insight® Workshop Home Study Course

Learn how to identify major turning points
and maximise your profits

Filmed just as the 2007 new all time highs were being made, it is a rare opportunity to see how a professional technical analyst can pick up on key clues and then put the pieces of the puzzle together to qualify the significance of a new all time high as it is being made and then attempt look into the murky future to see what may be coming down the track.

At this workshop, Jason Sidney will teach you a range of powerful trading and technical analysis techniques. He will also show you how to apply these techniques to your trading. The workshop will give you the opportunity to learn in detail how these techniques can be used to identify major turning points in financial markets and help you to maximize your profit earning potential.

The workshop was recorded as a high quality, “any region” DVD series which will play in most regions around the world, and includes a workbook with large easy to read examples for you to study and work through as the course material is explained and taught in detail throughout the DVD series.

Jason Sidney has become well known for his ability to convey highly technical information in a way that the average person can use and understand and the major benefit of the Analyst Insight® Workshop DVD series is you can watch and re-watch these lessons as many times as you like, giving you the ability to extract the maximum amount of information contained within the lessons!

STOCKMARKET MASTER COURSE

Neil Costa was a personal friend and trading mentor of mine, who taught me most of what I know today about Gann and financial markets. I spent many hours talking about trading and Gann techniques with him; he was a master trader and educator.

At long last his Stockmarket Master Course is now available for study again, which gives you the chance to study what I personally believe to be one of the most comprehensive and highest quality stockmarket investment courses available on the market today.

The course itself is of high quality containing both written and audio CD lessons designed to complement each other. As part of the work we did in restoring the course to its original quality we were also able to locate additional educational material Neil Costa produced that expands on and will help to improve your comprehension of the course material. Anyone who study's this course will know they are learning from a master!
